

6 month AIMerversary!

Kat Moyou's AIM report | November 2023

Thank you Brother and Sister Bir for putting up with me for a half a year and thank you everyone who is reading this for your support.

November was such a crazy month, personally, that I don't have much to report on. I spent most of the month being sick after some flooding in my apartment exposed black mold. Thankfully, the landlord has been quick to remedy the issue.

I conserved my energy for when I needed to be present in public. Retreated to my home for much needed rest and recovery while I cleaned up mess the water left. Yet, I cannot help myself, I took advantage of that down time to catch up on professional development that I can apply to the work here in the new year, as well as studied Spanish and Guarani.

November overview

- The central church in Lambaré hosted the National Youth Conference
 - Wrapped up grading English and dove into redesigning the grade 5 English workbook
 - Taught only one Sunday school class this month, but that one class was the highlight of my month
 - Got to make cute graduation certificates for the school, always fun finding avenues to illustrate
 - Still coming up with fun drama props, like accordion fish to demonstrate the miracle of the two fishes and five loaves of bread... tempted to compile these ideas for other Sunday school teachers
 - Started a new contract with Pentecostal Publishing House and sent off the roughs for the editors review today
-

Christian school

Keep the children in your prayers over the next months while they are enjoying their summer break. I already miss them a bunch and cannot wait to receive their hugs again in the new year.

Graduations

We prepared a little graduation ceremony for the grade six students in Christian education. When they return next year they will be going the older grade's service. Additionally, the school put on a pre-school and kindergarten ceremony for their families which was too cute for words.

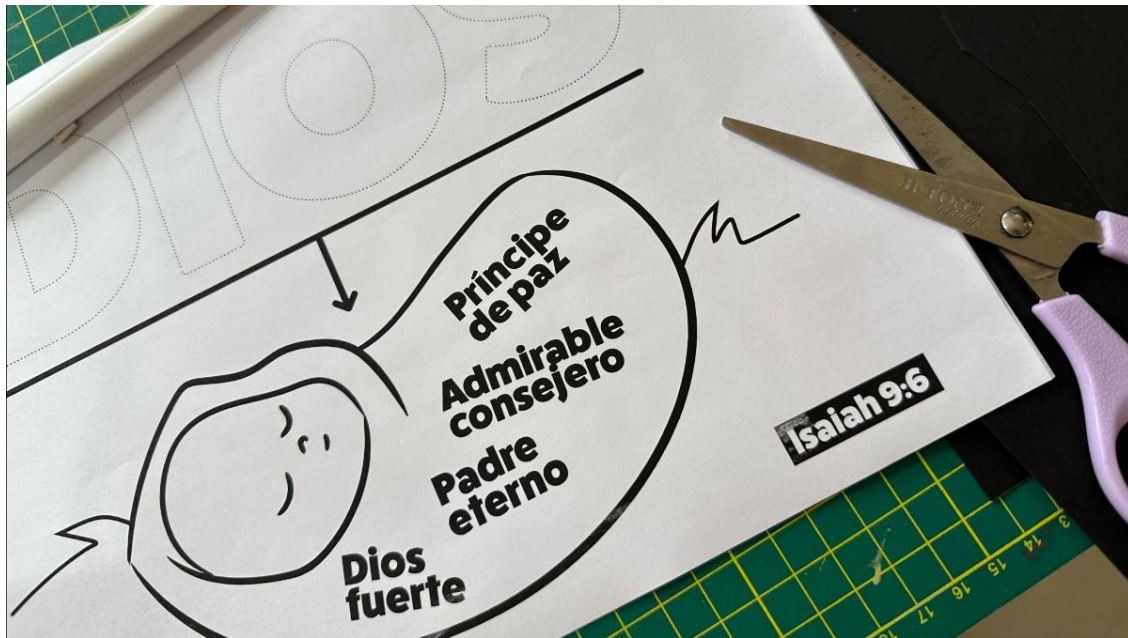

Youth Convention

Believe it or not, this was the first youth convention I attended, and it did not let down.

Pastor Hamilton León Peláez from Cali, Colombia preached for two nights at our church in Lambaré. It was a good turn out, and it was good to see all the adults come out and support the youth of Paraguay. It was also great to see familiar faces and meet new people.

Sunday school

This month and the next the kids are learning about the prophets of the Old Testament and tying it into the Christmas story. It is never too early to teach them sound doctrine, that prophecy purpose is to point people to the one true God.

Solid soup

Sopa Paraguaya is hands down my favourite food from this country.

Have you tried it?

GRACIAS

I am so grateful for to all those that helped sending me to this lovely nation.
Please, continue to cover Paraguay, the mission work, and the Christian school
in your prayers.

If you desire to be a part of the revival in Paraguay, please consider making a
one-time donation or become a monthly Partner in Missions (PIM).
