

# January 2024

This month I fully transitioned to living in Lithuania. One of my first priorities was meeting people and connecting within the community. God has

already opened many incredible doors, leading and connecting me to influential people within the city. I was also able to teach my first

Bible study to a group of retired women. The people here are so hungry! I am almost settled into my apartment and already have Lithuanians asking how they can be involved in game nights and suchlike. Praise God for open doors and planting churches!
