

# POLAND

February 2024

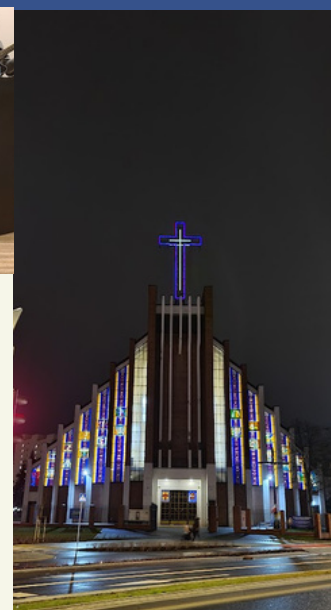

## INSPIRATION

As the first month of my third term comes to a close, I am reminded of how thankful I am to go where God would have me go. To follow the call of God is not always easy, and is often lined with many trials, struggles, and temptations to quit, but its worth it to endure through. One by one, hearts are turning towards God because of the efforts of His faithful. There is nothing so rewarding as seeing someone turning their life over to God, and their whole world dramatically blooming into the healthy, healed, whole person God always intended them to be.

## CONNECTION

Our Game Nights continue to open many opportunities to share Jesus with our connections. Nearly every Friday since I arrived back in Poland, there have been hungry hearts open to hear about God.

Time invested with our connections outside of outside of our scheduled activities have also retained that openness, and many conversations have been God-centered.

## STRATEGY & PRAYER

Pray for the city to be loosed from its long-standing bondage and God's Spirit would have free reign throughout the people.

Pray for our connections that the seeds planted during these conversations, and continued Bible studies, would have fertile and soft hearts to grow in.

Pray for blessings over each AIMer.
