## February 2024

### A Different Perspective

---

It's the end of February, one of the coldest and darkest months of the year. It's often very depressing and stressful for people. They are tired of the snow and the cold, they are ready for some signal of warmth.

The day I shot this photo to the left, it was the same story. After several days of mildly warm weather for winter time, it turned cold again. I wandered in between these buildings and found these artworks. Their bright colors were a stark contrast to the crumbling Post-Soviet buildings they hang on.

It reminded me that in the middle of the dark, light and hope can be found.

### Natural Beauty

While meeting with some of our people, we took a trip to the waterfall at Kuldīga. This is the widest waterfall in all of Europe. It was a sight to see, and I can only imagine how beautiful it will be in the summertime.

## Love, Sweet Love

This being the month of Love as it's often called, during the weekend that preceded Valentine's Day we celebrated love. At Game night we each took turns naming one thing that we liked about our seat neighbors and one thing we liked about ourselves. During Sunday service we learned about the Love of God and how much He loves each and every one of us. We all can use more love in our lives, there is no such thing as too much love.

Here in Jelgava, you can find a wide variety of nations represented because of the local university. We have close contact with several of the Indians, and they are such beautiful people. One of the guys that attends services was leaving for a week and decided to fix a typical Indian dish for us following a Bible study one night. Everyone was concerned about my ability to handle the spice level, but there was no need to worry. It was very delicious!! I cannot wait for more Bible studies to happen and to see the Gospel spread to every nation and every tongue.
