

February 2024

I have officially been working in the country of Lithuania for the past two months and I have begun to see many open doors that used to take great effort to open in the past. God has truly connected me to many different influential people in the city and has already started to establish the beginnings of a church in Siauliai.

This month I was able to hold my first game night with a precious couple and their daughter. They were so hungry for friendship that we did not even play any games! We just talked. I believe that this relationship is going to grow into a Bible study soon! I am hoping to have several more game nights next month and begin to hold services in my home as well. I am excited to be able to share the light with those around me.

An amazing opportunity has arisen for me to be part of an English Club that the American Embassy puts on in the local library. I have gotten to meet many people this way and they are hungry to know more about God! In these past two months with this group and other evangelistic efforts I have been able to make over 30 new connections that will soon turn into Bible studies!

Due to a family emergency, I had to return stateside to help my father with some things. Thankfully all is now well and I was able to quickly return to the field. I was able to still keep in contact with people via Facetime and messages while I was gone. This month I was also blessed to spend some time in Latvia with some of the disciples we have made. One young man even received the Holy Ghost at the game night there! Praise the Lord! I am looking forward to what next month holds. God Bless,

Christa Sanna
