Happy Easter Week from Estonia!

This February and March, we have seen growth in the youth ministry in Tallinn! We are pleased to report that we have had 3 first time guests to our Youth Nights here over the last two months. We are currently teaching through the Bible Study Exploring God's Word with the boys who attend and we have been talking about giants of faith, such as Abraham and Moses. The interest in these stories has led to some interesting discussions about God's plan for His people and God's faithfulness. We are deeply grateful for continued growth in this effort. We are also pleased to report that a personal contact of ours has also visited church several times over the last couple months. We continue to pray for God's guidance in his life. This

month, Logan was able to attend an Estonian language training course and another workshop where many native Estonians were present. New connections were made at this event that we pray will lead to opportunities to witness. We both have been able to attend two walking tours over the last month that were held entirely in Estonian and make connections to several elderly Estonians in the community. The Sunday school ministry in Tallinn is also growing as we have had high attendance and new children present over the last month. This Sunday for Easter Sunday, we will be having a community dinner and have invited community contacts to join us. We are excited to see what God will do in this service. May God bless you all!

In Christ,

Joshua and Logan Robertson, AIMers to Estonia.
