Youth Missions Training

In March, we concluded our Youth Missions Training. The training was done in partnership with the National Youth Ministry and National Missions Department of the IPUE. It was an 8 week program with 1 in-person session, and 7 weekly live teaching calls. We had members of our RKR Team teaching lessons to the youth on topics concerning personal devotion, personal evangelism, discipleship making, spiritual warfare, and how to start a student ministry at their campuses.

My favorite lesson was the session taught by Pastor Jesus Perez Perez, Spain's National Director of Missions. "My life was transformed because someone taught me a Bible study." He closed out the session by praying for the students, that God would give them a burden to reach the lost and impact this nation for Jesus.
