

VOLUME NO 1.  
MARCH 15 - APRIL 15

# ATHENS, GREECE

Supervising Missionaries: Joshua and Christene Moreno

## Greetings, From Athens!

ALEAH N. HUEY

It's amazing what the Lord can do in just one month! My AIM partner, Danielle, and I have thoroughly enjoyed our time here in Athens, and we are thrilled to be back here in our second home, with our Greece family. Our first few weeks have been focused on homeschool education for the Moreno children, digital church projects, hospitality gifts, fellowship with the body of Christ, and preparing a NEW church facility for the Pentecostals of Athens. God has a beautiful vision for the people of Athens, and I feel blessed to be just a small part of what He is doing.

## Special Projects and Events:

MK Education

Graphic Design:  
New FB Page Launch,  
Google Maps Registration,  
Church Cards, Usher  
Badges, Visitor Cards,  
Media Announcements,  
Event Promotions,  
and Reels

Ignite Youth Conference:  
Hospitality Bags, Airport  
Pick-ups, Event Set-up,  
Prayer, and Fellowship

New Church Building:  
Construction Cleanup,  
Prayer Walking, Special  
Event Set-up and  
Organization

## Testimonies:

Sunday Services:  
1 Received the Holy Ghost  
1 Water Baptism

Ignite Conference:  
7 Received the Holy Ghost

## Faith in Action

There is something so special about the church going through any type of construction project. I believe God blesses the work of those who add both spiritually, and physically to the body of Christ, and I have been a personal witness of this during our transition to a new facility here in Athens. As the church prepared to host a special youth conference, we were in the midst of what seemed like a never-ending list of tasks for the facility that was undergoing construction to meet local building codes. We became more and more pressed for time as projects took longer than scheduled, and we only had the temporary church location for one more week. As we came up with alternate schedule ideas and backup plans, I felt encouraged to share from my home church experience about having services in the middle of major construction, and how it blessed the body of Christ, and never hindered God's ability to accomplish the desires of His will. On Sunday morning, with less than a week until our first scheduled service in the new facility, yet an almost unchanged construction site, Pastor Moreno made the announcement to the whole church that we would no longer be having services in a hotel conference room, but that we were moving forward, "BY FAITH" and we would be having service in the new facility that same week. Pastor Moreno also followed his word of faith, with the action of cancelling the final Sunday reservation they had for that same hotel conference room. We had no idea whether the church would be ready by then, but Sis Moreno shared that Pastor Moreno was so encouraged by the stories about church services in an active construction zone that he felt impressed to take a leap of faith. The lesson I believe God is teaching me the loudest during my time here in Athens so far is this; the maturity of our faith is demonstrated by our actions of obedience. We didn't just sit around waiting for the facility to be finished, and hope that we could have church. No! We got to work. As the construction continued, we followed the work each day with a clean-up crew. We came right in with the workers and after each area was finished, we cleaned and set up anything we could. With the unity and faithfulness of our hard-working members of the body, and by the word of faith from our Pastor, we had church in the new facility right on time! God heard our faith and saw our actions! The presence of God was evident as young people from Greece, Austria, France, Italy, America, and the Netherlands gathered together in worship for the Ignite Conference. Seven people were filled with the Holy Ghost and many lives are forever marked by the actions of faith that took place, including mine.
