

ALICIA & BAPTISTE IN PARIS

APRIL 2025 - AIM NEWSLETTER

TRANSFORMED BY TRUTH

Rebecca had grown up with some understanding of Christianity, but she had never personally committed to any religious belief. While on vacation, she met a Baptist man who began to share with her about Jesus. Before she left, he encouraged her to find a Pentecostal church when she returned to Paris.

Back in France, Rebecca searched online and came across PCC. She watched one of our services where I happened to be preaching about making the choice to serve God. That message stirred something in her, and she decided to visit in person. To our surprise, she lived just five minutes from our home!

Not long after, we began Bible studies together. As she read the Scriptures for herself, she came to understand the evidence of speaking in tongues as the initial sign of receiving the Holy Spirit. That very next Sunday, God filled her—and the following weekend, I had the honor of baptizing her in Jesus' name. It's been an incredible blessing to watch her hunger and thirst for more of God.

Areawide Missionary Training & Fellowship

We had the incredible privilege of gathering with missionaries from across Europe for 3 days of training and fellowship. Sitting alongside those who have faithfully served for years, receiving powerful teaching, and uniting around our shared mission to reach the nations of Europe was deeply inspiring, refreshing and empowering.

Easter Evangelism

We celebrated Easter weekend out on the streets as we lifted up songs of worship, shared the love of Jesus, and handed out food to those in need. The response from the community was incredibly positive! We're especially thankful to have had 25 members of PCC join us— our largest group yet!

STEP BY STEP

Another lady who was baptized this month had grown up as a Jehovah's Witness. But she found herself spiritually unfulfilled and began attending another denomination in search of more. One night, she had a dream of a church with old plastic chairs like the ones from her childhood but in the dream she felt the tangible presence of God.

When she walked into PCC for the first time, that dream immediately came back to her and she took it as confirmation of God's leading. During our Baptism Sunday announcement, she felt a deep conviction to take that next step of faith and was baptized and a week later, she was filled with the Spirit.
