## District 4 Ladies Conference

This month district 4 had a ladies conference on a Saturday. We were at the church for 12+ hours with all the preparations and cleanup. Brad and Lorinda led worship. We sang and played about 25 songs through the course of the day! The speakers brought important topics to the table for women in the church and in ministry. The presence of the Lord welcomed us in each session!

## Iglesia Casa de Dios

We went to visit a small outdoor church in another part of Santa Cruz this month. We ministered there in word and worship. This was Brad's first time to preach a full sermon in Spanish! We prayed and encouraged the church family and pastors. In typical Bolivian church style, they changed the setup after service to serve a meal. We visited for most of the afternoon. The twins even made friends with the resident dog! The pastor has asked if we would come back in June.

## Cochabamba

Brad took two trips to Cochabamba with Bro. Marse to work on the Bible School to prepare for the start of classes. There was much to do, everything from sanding and painting, to cleaning mattresses and cobwebs. Here is a picture of him at the Bible School working alongside one of our pastor's wives in that area.

## Social Media Stuff

The LPSC Youth were involved in a competition to create a reel to promote the upcoming youth camp in July. Ariana did all the editing for this reel! You can check it out on the "Departamento Nacional de Jovenes IPIUB" page on Facebook. She also is starting to help create and post content for the Salyuzmissions pages on Instagram and Facebook!

Outdoor Sunday School!

### LPSC Music Team "Ensayo"

After piano classes ended, we moved some of the music practices to our home to work on vocal training. As always, Ariana is filling in where needed, adding that third part in while the musicians, who usually sing that part, worked in another area.

The twins had a birthday May 23rd! They are 11 years old now and growing by the minute it seems!

## Piano Classes Finale

The Piano classes were finalized this month. The students presented songs that they learned, received certificates, enjoyed a time of worship and shared a meal together. We invited the pastor of LPSC to speak to the group. He charged the group with the responsibility of sharing their talents and growing the talents that they have been given. We took time to pray over each student and the presence of the Lord moved in on our back porch. One of the girls from the community who joined our classes now wants to go to the IPIUB Youth Camp with our youth in July!

Our neighbor has a very sick mom and has not been able to visit the church as she wished. However, she told us how touched she was to hear the worship songs and time of worship we had during this finale night.
