## In Poland as it is in Heaven...

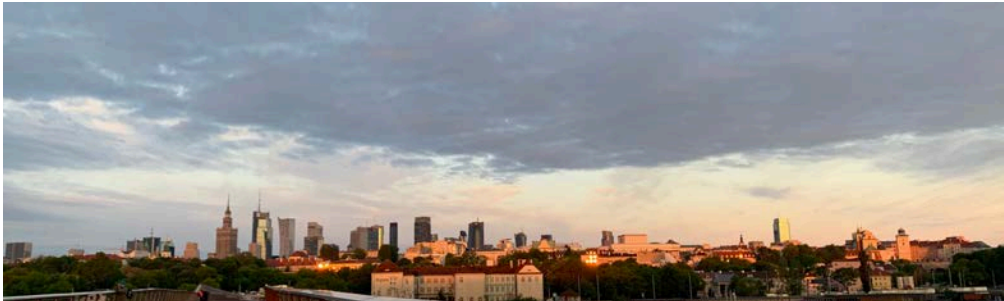

We have had a busy couple of months in Warsaw, but each day we are seeing God's hand in all that we do. We are rejoicing over 1 being baptized in Jesus Name! There is much excitement over what God is doing. Many of our regular members are starting to become more involved in the workings of the church and it is exciting to watch as they grow deeper in their walk with God and step into new roles. Pray over our church here in Warsaw and for strength and wisdom for Bro. Jackson and Sis. Alyssa Brooks as they navigate this new season. Pray that we are able to locate a more permanent meeting space. We are praying and believing for a "miracle space". We know that God has something great in store.

God is truly moving in the hearts of many that we are working with here in Warsaw and we are believing that God would continue to allow the hunger and desire for Him to grow deeper and that each of them would have their own personal revelation of Him.

There have been so many deep conversations that have been had over the course of this last month. Many are struggling with addiction, fear, anxiety and the uncertainty of their future. It is my prayer that each of these individuals would find freedom from the battles they are facing. That God would show up in each of their situations and allow them to see a life of peace and wholeness that can only be found through Him. I have watched as God has allowed each of these conversations open up to opportunities to share God's love to them.

I sat down at English Club a few weeks ago and spoke with a man from Poland. This individual claims he is not religious, but has started attending our church recently. As he has been coming, I have watched as a curiosity has sparked within him. As we spoke during our English Club, He began to ask questions about what made us different. He inquired about my journey to finding God for myself and how I developed a relationship with God. As I shared my testimony with him, I continued to explain that talking to God was as simple as it was talking to me. That if he made the decision to reach for God that God would be right there to meet Him. There are many like this individual I spoke about that are growing more curious. Many individuals have expressed how our events are 'different' from others they have attended in our city and I know that the difference they are feeling is the presence of God. Please pray with me that as this curiosity grows within them, that God would continue to open doors for our team to have more conversations and bible studies. That whether they be in a church service, game night or English Club, that God would allow them to experience God for themselves. I am praying and believing for God to do something great in each of their lives and that they would have an undeniable experience with Him that would change their lives forever.
