GSM-MEDITERRANEAN

JUNE

ARRIVALS

I'm incredibly grateful for the arrival of this summer's AIMers who have come to serve with RKR. I am especially excited for the arrival of Kathleen who has come to help with GSM! We're also grateful for Noel, a passionate young man from Massachusetts studying abroad, who's actively involved in campus ministry. His classmate in the blue was baptized in the name of Jesus in one of our services!

LIFE GROUPS

I have had the opportunity to oversee a life group on Monday nights. I am so grateful for the many guests and university students that have been attending. I have also been blessed to visit other life groups and translate for Kathleen during the times she was asked to minister.

RKR

What a blessing it is and has been to a part of RKR. GOD is equipping laborers to go out into the field and hungry laborers are being exposed to the needs and burden of Europe. This summer's participants have been outstanding, and what a blessing it has been to be able to help teach. We were also blessed to have our Europe regional directors Bro. and Sis. Harrod teach a session, where they shared their burden and vision for the Europe region.

BAPTISMS

I am so grateful for the continued souls that are being added to the churches here in Barcelona. I am also so grateful for two students who were baptized and filled with the Holy Spirit. One student being a contact from France that Kathleen made while in the U.S. and another study abroad student who is in the same program as Noel!

BIBLE STUDIES AND IPC

I'm so thankful to have Kathleen with me teaching Bible studies with new contacts we've made this past semester. I'm so grateful for the way God continues to open doors for connection and growth. I've also been continuing to serve at IPC, helping with translation and supporting however I can.

TRIP TO FRANCE

One of the best parts of being part of the RKR Training Center is seeing God connect people with the places and purposes He's preparing them for. I was honored to join Kathleen on a trip to France, where she met with the missionaries and felt a clear sense of confirmation about her next steps. It was a beautiful sight to see!

DOWNTIME

Things have been busy lately, but in the best way possible. One new habit I've enjoyed is setting aside time to go on a hike once a month and it's become something I really look forward to. It's been a refreshing way to slow down, reflect, and reset for both body and soul. Here's a picture from the top of one of my recent adventures!

Thank you for your continued giving, prayers and support!
