

Testimony... update!

By the power of God in Jesus' name Lito is now walking, and started talking and regained most of the senses in the right side of his body. He still needs to regain the use of his right arm and hand. Can you help us pray and believe God for that healing?

To our big surprise, Lito was at church last Sunday, October 26th!

Did You Know...

Tahitian black pearls grow only in lagoons of French Polynesia - each one a unique gift from the ocean!

The Work

Bible Studies are growing

God is adding people to the Bible studies. To one Bible study, God added an 82 year old Tahitian lady! This elder Tahitian lady - Isabelle - is faithfully coming to church every Sunday. She told me one Sunday: "Pablo, I'm catholic, but when I come here, I feel the power [of God]. I feel so much love here that I do not feel in the Catholic Church." Also, my wife has begun today - Saturday November 1st - a new Bible study with the teenage daughter of one of her Bible studies!

Weekly Visitation

We've been keeping busy visiting Lito at the rehab and recovery facility almost everyday to spend time, laugh and pray with him. We're also visiting another elderly man, bringing him food and praying for him. And we've visited the elder Tahitian man who gave us the meeting place for Sundays - we prayed for him in his home. Lately, we've been visiting a very sick, elder Tahitian Chinese lady to pray for her. It's been such a blessing to share God's love and bring them hope! Thank you for your prayers and support - they really mean so much to us.
