## I'm giving THANKS!

### Healing Testimonies

I'm so thankful that God is the same yesterday, today, and forever. He is still pouring out His spirit, healing, and changing lives. .

Several weeks ago, I began experiencing unusual, sharp pains in my lower back. Although the pain would come and go, it was noticeable enough that I prayed and asked God to heal whatever was causing it. Two weeks later, during service at UPCR, a sister came over and prayed for me, placing her hand on my back. As I worshiped, the Lord reminded me of my prayer. I thanked Him for healing me, and I haven't experienced that pain since.

*Adina gives God the glory for healing her hands.*

Around the same time, a young man came into the office at DayStar with a serious eye issue, his eyes were visibly protruding from their sockets. Director Narcisse and one of the teachers prayed for him in Jesus' name, and his eyes returned to their normal position.

Additionally, during dinner with a new contact, she explained that her hands had been aching constantly and asked if I would pray for her. The next day, she told me her hand hadn't hurt for the first time in a long while. Weeks later, she texted again to say her hands were still doing well.

## Conversational English

We launched a 6-week Conversational English course this month, and are thankful to offer this support in the Gisasa Village. We rejoice in the new connections being made and the relationships that continue to grow.

## Bible Studies

I'm incredibly grateful for every Bible study and Discipleship relationship.

- Emmanuel and his family have been in Bible study for several months. In November, he declared that he was going to church, he started carrying his Bible to study between taxi clients each day, and received a revelation about baptism in Jesus' name.
- Sada has been participating in Bible study since last year. This month, she expressed her need to be re-baptized, this time in Jesus' name.
- Valentine joined a Bible study three months ago. Recently, she received the Holy Ghost and now desires to be baptized in Jesus' name.
- Shalom has been helping translate Bible studies and has embraced the opportunity to teach what he is learning. He leads his family in Bible study and shares the gospel with his friends and contacts.

*Valentine received the Holy Ghost and will be baptized.*

## Prayer Request

Please partner with me in prayer for:

- An increase in disciple-makers to come alongside and support new believers.
- Revelation and obedience to the gospel among the scholars who are actively seeking God in their lives.
- Sufficient and timely rainfall during the rainy season to prevent drought and protect local food production.
