

PANTONS IN JAPAN

CHRISTMAS PROGRAM

Tree of Life Christian School had a wonderful Christmas program. This year, each of the students was an animal in this original telling of the Christmas story. "A Baby is Born", written by AIMER Sierra Tiberend. The program also involved handbells and singing songs that helped to tell the story of our Savior being born to bring us salvation. After weeks of practicing and preparation, the students did a wonderful job performing for an audience of friends and family. It was amazing seeing how much the students have grown. Hearing their sweet voices singing songs of praise fills my heart with joy.

CHRISTMAS EVE OPEN HOUSE

This year, we brought a family tradition to Tree of Life Church in Nago City. Christmas Eve is a wonderful time to open our hearts and our home, so we held an Open House for anyone to drop by and celebrate with us.

We were blessed to enjoy Christmas songs, games, and treats with friends both new and old.

PRAYERS!

Early in December our son, Micah, had to be admitted to the hospital for keto acidosis. This can happen to diabetics. He spent two nights in the ICU as they closely monitored his recovery. Please pray for him as he is also dealing with stomach issues and headaches that the doctors have not yet been able to diagnose.

POTLUCK & PRESENTS

The annual Christmas service and potluck at Sound of Praise Church in Uruma City is always a day full of fun and fellowship. Everyone works together to bring food and presents to share. The children especially look forward to the gift game each year. This year we were able to bring two of our students with us. Praise God for His blessing and the wonderful family of God.
