

### Daily Life!!!

*Visitations are ongoing, giving us meaningful opportunities to pray, encourage, and share God's love in personal ways.*

*The Lord has also blessed us with two new Bible Studies. We are thankful to see lives being touched and faith growing!*

*Lito update: Lito is out of rehabilitation center, walking (with a cane), and he is starting to be able to move the fingers on his right hand! Lito attends Sunday services quite faithfully!*

### Did You Know...

*In French Polynesia, there are more coconut trees than people!*

## The Work

### New Bible studies

The Lord has opened the door for us to begin another Bible Study with a first-time visitor. She returned to church today, and we are so thankful for how God is drawing her heart. She suffers from a disease that causes her head to hang low and prevents her from eating normally, receiving nutrition through a syringe. Please join us in praying for Laure's salvation and believing God will heal her.

### Water baptism

Following in his mother's footsteps, Marie's son Vincent was baptized!

### Healing

A first-time Tahitian visitor suffered a heart attack just days after coming to church. He was in the ICU, but he is back! We praise Jesus for bringing him through this.
