

Amber Ward 2025

Amber Ward- AIMER to Finland

Field Notes

This month has flown by! In the field this month, there have been even more biblical conversations, open doors, and the planning stages of a campus ministry that will launch in February. Deeper fellowship has been sought after among friends, which has led to further conversation about the truth. There are consistent plans from one of my friends to attend church, as the Lord has moved upon them. A previously closed door has opened again, which has led to further plans to have fellowship and demonstrate the love of the Lord.

Personal Notes

This month, the church in Finland did a 21-day fast, and this was the longest fast that I have ever done. It revealed a lot about the Lord to me, and there was a lot of growth made. I have seen the Lord move in mighty ways over the course of this fast in my friend group. Friends have stopped going to certain things because they aren't good, and have instead spoken with me about church attendance and options for student life that do not involve ungodly things, which are being chosen by my friends.

with gratitude, Amber Ward
