MONTHLY ADVENTURES

Greetings from Chisinau! The last month of winter has passed in a flurry of clouds and sunshine. My sister and I have spent many of our days with the McBride's two wonderful MKs. There are also quite a few public parks here in the city, many of which have historical and cultural importance to the people here. Sometimes the values and past of a country are easier to see when you walk through a memorial park.

It has been a blessing to work with the McBride family. They've been wonderful guides as we learn through everything from navigating the culture to making apartment repairs about the daily life of missions. I am grateful for the time I've had here and pray we see a great revival of souls in coming years.

Until He comes!

CHIŞINĂU IS BEAUTIFUL.
Snow melts and falls again, cold days
follow sunshine, and hints of new green
peek through the winter haze. These
pictures were taken around the city
over several days. Spring may start in
March, but the change begins long
before.
