

Daily Life

Bible studies are taught 6 days a week, mostly in peoples' homes - Tuesdays through Sundays.

Sometimes, people come to our home for Bible study and to share ma'a ("food" in Tahitian).

Interesting new place for Bible study: right in front of City Hall.

Did You Know...

In French Polynesia, women traditionally wear a flower behind the left ear to show they're married or in a relationship! A flower worn behind the right ear shows a woman is single.

The Work

New Bible studies

This month, we begun two new Bible Studies in person in Tahiti and one by WhatsApp, because that student lives 1452km away!

Last Tuesday, we held a group Bible study about water baptism with several Tahitian and Tahitian-Chinese. They never heard about baptism in Jesus' name...

New monthly service begun

Our monthly "Ladies Ministry" was started by the one and only Sister Joann - my lovely wife!

Healing

The same Tahitian man who was admitted to ICU last month, and healed, was back in ICU this month... AND HEALED AGAIN! He's back at church and worshipping in Tahitian! Jesus still heals!
