AT A GLANCE...
Monthly Highlights

March in Brazil has been a wonderful friend to me. One word could summarize the time the Lord has provided during my first month: revitalize.

While serving the past month, I have found that returning to Brazil has offered me a space to breathe. God has operated through its people, nature, and the work here in a manner that has provided a freshness of perspective and in spirit.

For my first newsletter, I would like to highlight a few serendipitous moments of witness, Brazilian culture and people, and the Ladies of Virtue Conference.

First Prayer at the Feira

MAIRINQUE'S FARMER'S MARKET

My first day on Brazilian soil began with a prayer outreach at the local farmer's market!

We were able to set up a booth, bring a keyboard, and minister to locals during the weekly feira for the first time! By doing so, we prayed for a few families, made connections, and passed out flyers.

As a bonus, I was able to re-experience the best kabobs known to man!

Oklahoma Men's Group

BUILD & MINISTER

We hosted a group of men from Oklahoma who came to work on a house for future AIMers here on the property. With all the men building outside, the ladies worked to provide nourishment and refreshment. It was a time of hard work for all that fed the soul.

While the men's group was here, we experienced a service held at the home of a new family. It held a beautiful moment of worship and fellowship. Another impactful moment during their time in Brazil included witnessing to a woman who came to ask for prayer. While at brunch, we prayed for her and her son!

Ladies of Virtue

WOMEN'S CONFERENCE

The largest experience I had from March came from the Ladies of Virtue Women's Conference. Not only were services and worship incredible, but the intentional preparation process was beautiful.

Moments that I enjoyed leading up to the week of the conference included the fellowship experienced through working alongside one another. Whether cleaning, cooking, or creating, many conversations, fun, and tears were shared. It was incredible to see others travel and arrive early to serve in facilitating the creation of a conference to intentionally serve the women in Brazil.

One aspect of the ladies conference that contributed to this experience of revitalization was the worship. The women surrendered in worship in such a profound way. It was amazing to worship alongside them. To be in the center of an environment where pursuing God was the only goal.

A TESTIMONY

For this conference, we had Sis. Hoffman, Sis. Green, Sis. Paul, and Bianca Baptiste join us! It was a pleasure to meet each one of them and see them minister. One special moment within the conference included meeting both of the ladies in the photo to the left.

During one service, Sis. Hoffman (far left) grabbed me to translate a message to this young lady (far right). With what (very broken) Portuguese I possessed, I translated what I could. Through this, we learned that the young lady had experienced loss that caused fear to surround her. As someone who recently lost a sister and friend to tragedy, I was able to relate with and pray for her alongside Sis. Hoffman. By the grace and mercy of God, we were able to spend a moment in God's presence, and she was filled with the Holy Ghost! This moment will forever be impactful for me.

Moreover, the theme for Ladies of Virtue 2026 was "Subindo de Nivel," which translates to "leveling up" or "taking it to the next level." Through this conference, Jesus created an environment for refreshing and realigning ourselves with Him. More than just rededication, powerful moments of change were experienced. Of committing more. Of surrendering more. Of trusting Him more deeply.

I'm excited to see how God continues to move!

God bless! -Kate
