## ESL

Each week I've had the opportunity to teach an ESL class for immigrants and refugees in our community. It has been a rewarding experience getting to know students from diverse backgrounds while helping them grow in their English skills. Our classes focus on practical conversation, vocabulary, and everyday situations so students can feel more confident communicating in daily life.

## PURPOSE INSTITUTE

I have also had the privilege of assisting with Purpose Institute as we seek to equip students with a deeper understanding of Scripture and prepare them for effective ministry. We guide students through study of the Bible while encouraging thoughtful engagement with the Scripture and its application to ministry and daily life.

## FELLOWSHIP

Another meaningful aspect of this season has been cultivating relationships within the church community. Through fellowship, I have been able to learn from others as we share life experiences. These connecting moments have been a valuable reminder of the vital role that genuine relationships play in both ministry and life.
