

# Amber Ward 2026

Amber Ward- AIMER to Finland

## Field Notes

March has flown by! Exams have passed and we have entered into a new semester! With winter going away and some warmer weather coming in slowly I have witnessed outsiders come into my friend group. We have spent a lot of time together this past month growing relationships and diving into biblical discussion. Each time my friends have come to my house we have talked about the Bible with the most notable conversation being 3 hours long! This has opened the door to more talk about salvation and even about the Lords provision as most of my friend group are looking for jobs. We have had prayer requests given and two of my friends who are nonbelievers came to our ladies event at church. At this event they felt the love of the Lord which helped when they had serious needs that they requested prayer for! One of my friends asked about the Holy Ghost as he did not know what it was and then others asked me about the Bible, why I had it, what it was, and why I read it. I am seeing growth from the seeds that have been sown and I am so ecstatic about it.

## Personal Notes

This month was my birthday. I have never spent my birthday by myself or in a foreign country and my friends got together and surprised me with a beautiful gift of letters from each of them and I was a crying mess! I was overwhelmed with what they said in them. The most notable thing was that they felt the love of Jesus from me--which is the goal! It made my heart so happy. I am so honored to have this wonderful group of people and to be able to see them grow and come towards Jesus is amazing! Hallelujah for growth!

with gratitude, Amber Ward
