

The Green Family

April 2026 Newsletter

On the ministry side, Britain preached one service and also had the privilege of leading a Bible study at one of the local life groups, diving into the necessity of baptism.

First, we are thrilled to report that we have advanced to the next level at our Spanish language school. We are now studying in a B1 class, which represents an intermediate level of proficiency. At B1 (A1-C2), a learner can handle everyday conversations, express opinions, and navigate most situations that come up while living in a foreign country. It is a meaningful milestone and we are grateful for the progress! Britain is attending two-hour classes twice a week on Tuesdays and Thursdays, along with an additional conversation class on Fridays to keep building fluency.

Now for the big news! **the Green family is growing!** We are expecting our second child in November, and Judah is thrilled to become a big brother. We have already connected with a physician here in Barcelona and have had two appointments. We are so grateful to share that the baby is healthy! We do want to ask for your prayers, though. Valerie has been hit hard with nausea and morning sickness throughout this first trimester, and it has kept her from attending language school, church services, or even leaving the apartment for much of the month. We covet your prayers for her and for our whole family during this season. We trust the Lord is faithful and we are believing for relief and renewed strength for her soon.

Thank you, as always, for walking this journey with us through your prayers and support. More to come!
With love, Britain, Valerie, Judah, and Baby
