

Daily Life

We recently finished several Bible Studies and are excited to begin new ones. Our son Paul, has started 2 Bible Studies with his classmates.. It is a blessing to watch the next generation share the Word of God.

And since the Nash family arrived, we've been helping them settle and enjoying fellowship.

Did You Know...

The first settlers brought chickens and dogs across the Pacific over 1,000 years ago. And now you see them throughout the region.

So, when you see chickens, dogs, and birds around the islands, you're seeing part of a living connection to Polynesians' ancient voyaging history!

The Work

We rejoiced to see Laure follow the Lord Jesus and get baptized! Despite battling "Charcot disease", she remains one of the most faithful saints in our church.

This month, we were delighted to see one Tahitian lady receive the gift of the Holy Ghost! It's the first person since we came last year. We rejoice with her and thank God.

Mothers' Day

We enjoyed celebrating Mother's Day with the amazing mothers of our church. As a small token of our appreciation, we honored each mother by recognizing her, praying for her, giving her chocolate, and drawing a few prizes.

Arrival of the Nashes

We thank God the Nash family set foot in French Polynesia! What a refreshment, and blessing and extra help! A true partnership of faith.
