3 WEEKS TRAINING

Training was amazing in these three weeks we had a great French teacher named dodjie, we also learned a lot about spiritual warfare, finances in missions, about how to take leadership and be a good servant of the lord, and we also learned about missions in different regions and the different perspectives we can have in the the ministry.

FIRST WEEK

We went to a restaurant called la cabane by the beach and while we were walking to the beach, we passed a man who was painted head to toe in white paint and standing like a statue with a cup in his hand, it's a voodoo person, when we got to the ocean he followed us and stood like a statue again the missionaries came over and said something about Jesus, and the man and his friend asked for them to pray and they did it was amazing watching god move.

This was right after we had got done dancing, worshipping, praying and seeking god; this service was amazing god had moved in this service. Two people receive the gift of the Holy Ghost for the first time and two people were healed life's were changed they worshipping better then we do. we also have went to some other churches and had youth rally's and seen more people be filled with the Holy Ghost.They have so much joy, and passion. They are so thankful to the lord. It so spirit filled and full of life, that church can last for hours without you knowing.
