

Hello Everyone!

3 Weeks of training have already passed. During these first 3 weeks, we spent over 70 hours in classes, had 12 speakers, sang in 4 different services, taught Sunday School in 3 churches, and had several testimonies spoken.

Within these classes we discussed many different topics, ranging from Spiritual Warfare to Conflict Resolution. One of the most vital classes we had was our Global Missions Structure class, held by Bro. Adam Hunely. Within this class, we discussed the history of the GM department as well as the current needs and events taking place throughout different regions. It is crucial that we keep the future in our focus, but the past in our peripheral.

Not only have we gotten the opportunity to hear from the wonderful missionaries that have been in our classes, but we've also gotten to experience a bit of the culture that graces Trinidad. Connecting with the nationals has been such a blessing and I cannot wait to see what harvest comes from these new connections.

While being in Trinidad, 1 baptism has been reported, with the belief of many more to come. This group, and myself in particular, are expectant of what the Lord is doing and is going to do here in the beautiful country of Trinidad and Tobago.

Blessings,

KynLeigh Cassidy
