

Daily Life

We thank God for a steady growth in attendance in our mid-week Bible study, and the beginning of a prayer meeting.

Did You Know...

A quick witted Tahitian businessman with a brilliant sense of humour thought of a good business idea: to open Pizza Queen next door from... Burger King!

The Work

Last month we rejoiced that Laure was baptized, this month we mourned Laure's passing away... and at the same time celebrated her spiritual promotion! It was a bittersweet experience, and with David we pray "LORD, make me to know my end, and what is the measure of my days, that I may know how frail I am." During Father's Day, Jesus healed one father from a constant pain in the legs. Another elder man in his seventies stopped taking medication for cholesterol and gout: Jesus healed him after prayer and laying on of hands in his house! And the owner of a Tahitian online radio station, with a worldwide audience of more than 400,000 people, is professionally recording me teaching the Exploring God's Word lessons, which will be broadcast online—for FREE!

Baptisms

Where the story of Laure ended, the story of a magnificent Tahitian couple began with a baptism in a river! There was also another Tahitian couple that was baptized in their own swimming pool! New life springing up during a time of mourning: 4 baptisms in Jesus' name!!

Discipleship

In two days, most of EGW's lessons were taught to this magnificent couple, and immediately followed up with discipleship—In My Father's House.
