LANDING!

As soon as I got to Guatemala I was picked up by the Campbells, a missionary family living here in Guatemala! They treated me to an amazing dinner, a trip to the grocery store, and they helped me get settled in to my home for the next two months!

DAY-TO-DAY

As I've spent some time here at HOME International, a children's home for kids found in difficult situations and sometimes orphaned, I have found a place spending some time with the kids during their free time! I've also spent sometime helping them out with their afternoon tutoring sessions at the escuela!

A VISIT FROM AMERICA!

We had FPC of Denham Springs from Louisiana, USA come and give the kids a much needed rest during their week off of school! They headed up a VBS that left the kids singing and dancing to the songs the group would play. The kids have continued to play with the toys and activities left by the group in full force!

MINISTRY MOMENTS

While being here I have had the privilege to attend the local church here in San Lucas, the church the kids here attend every Sunday! Thankfully the Lord has allowed me opportunities to testify and be present for the services here! Many guest preachers from the states have come and left lasting impacts on the local church goes here!

PRAAYER POINTS

- *The Children: The children here come from varying and difficult backgrounds. They need all the love, affection, and stability they can get!*
- *The Tias/Tios: Here with the focus on the family atmosphere, the maintenance workers, office/admin workers, and weekly caregivers are called Tias (Aunties) and Tios (Uncles). They spend week after caring for these children and they are in much need of prayers for a renewed strength and that the love of Christ flow in them and through them!*

THANK YOU!
