EMPOWER

The United Pentecostal Church International of Finland held its inaugural annual conference, Empower, on June 14. We were blessed to be joined by Revs. Wesley Witcher and Douglas Chesson. UPCIF licensed ministers were present along with 38 people in attendance. One Finnish man was filled with the Holy Ghost for the first time, and one also claimed a healing in his leg!

During the Witcher's time in Espoo, we opened our home for the church to fellowship with them and receive encouragement. Throughout the evening, everyone shared their personal testimonies of how they received salvation, and it was a impacting time for all. We are so thankful for what God is doing in Finland!
