## LEARNING TO REACH EVERY WORLDVIEW

Bonjour, from Benin! Our on-site training during the first 3 weeks was so impactful! We learned so much from the Spiritual Warfare classes with Bro. Alan Shalm, as well as other classes such as getting down to the Biblical View of Missions, and other classes that helped us look beyond a western perspective and know how to spread the gospel to those who grew up in a different worldview.

## GROWING THROUGH GOD'S REFINING

God has been challenging and stretching me in areas I didn't even know were holding me back. His gentle conviction has been leading me deeper and closer to Him and helping me to see Him in new lights. At times the path in front of me seems unclear, but He continually reminds me that He has directed my paths, and all I need to do is keep my eyes on the compass (Jesus!).
