

NewsLetter SOUTH KOREA

Madaline Pendleton

Wow, how has a month gone by already? I have enjoyed my time in Korea immensely. Being able to connect with the people in the local churches and experience life through their eyes has been very special. Some things I do throughout my week is get together with the young ladies in the church. We do all sorts of activities together. I also get to teach bible studies of different topics as well as english! Something else I have had the privilege of doing is connect with the elders of the Korean church and getting to do activities together. Here recently we had a joined service with the surrounding churches and the Lord showed up in such a powerful way. (The pictures on the right). But probably my favorite thing is the Friday night prayer. The picture here on the left is me and some of the girls getting together for specific prayer. The way God shows up in those quiet moments of devotion has been such a staple in my trip. I am very thankful to see what God is doing in Korea and learning more about this culture. Please continue to pray for S.K for revival to sweep through the nation. Thank you!
