

Amber Ward 2026

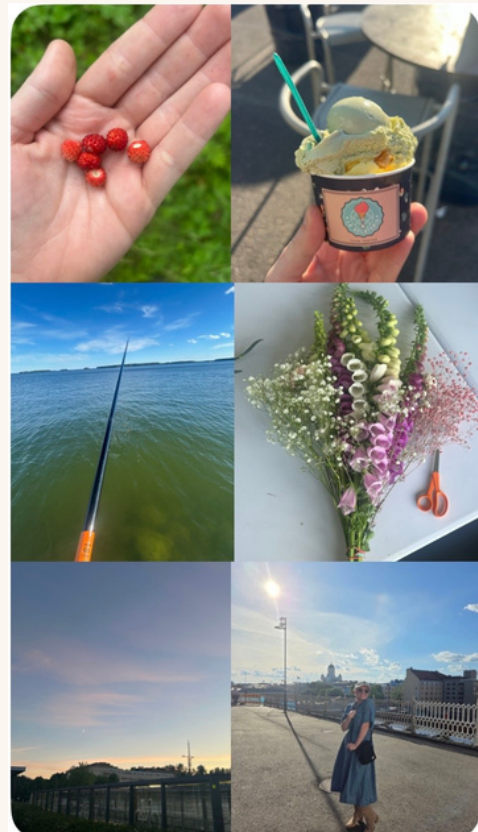

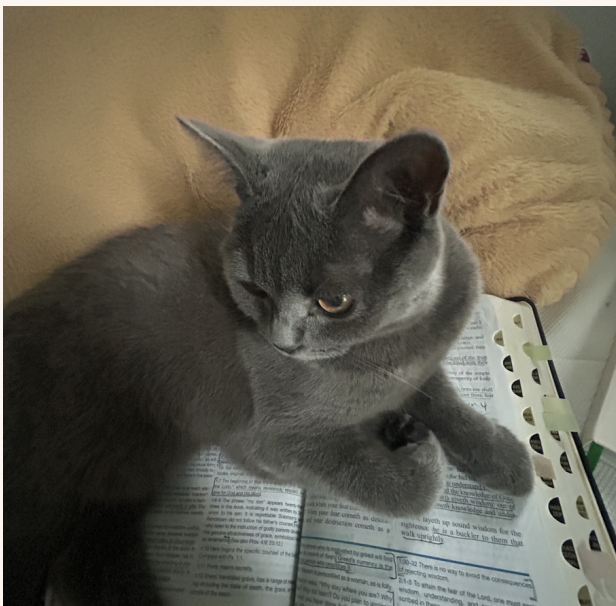

Amber Ward- AIMER to Finland

Field Notes

June has been an amazing month full of fellowship, fun, and ministry. This month has seen the beginnings of a Bible study! I have been working on my friend group for a while now and have had an opening to do a Bible study with one of my friends. We have had Biblical discussions before, and it is amazing that the door is open. I ask for prayers because this particular friend is an atheist who wants to invite more friends to this Bible study! In terms of church life, my amazing church family has taken me fishing, which is something that I have not done before, and I was very excited. I did not catch a fish, but I had awesome fellowship. The Lord has moved in other areas by opening doors with unbelieving coworkers, allowing for fellowship beyond work to build relationships, and by having a couple of coworkers express interest in small groups at church and even in possible Sunday service attendance.

Personal Notes

This month has been amazing. The summer is fantastic, and I love the weather compared to the weather in my home state. I am so excited about this Bible study! My friend is very excited and was asking questions. I have been able to foster more connections with my coworkers and with my friends' families, which I am so grateful for. I am very happy to be surrounded by my amazing church family and friends, as this has already been an unforgettable summer! We had a church conference called EMPOWER this month, and it was amazing. The Lord moved in a mighty way for this conference! Hearing His word from powerful men of God was good food for the soul! I have also had the privilege, as a cat lover, of cat-sitting for my best friend. The Lord really does give us the desires of our hearts! I am thrilled to be going through summer with Oona! I am ecstatic to see what the rest of the summer will hold!

with gratitude, Amber Ward
