Revival in Paysandu

In July I was blessed to take a weekend visit to the Paysandu church. We assembled a ministry team to travel and hold revival services Saturday and Sunday. These trips serve not only to bring fellowship and visitors to isolated churches in the interior of Uruguay, but also to allow the local pastors a time of rest as our team takes care of everything from the worship to the preaching of the word.

We had a powerful weekend that resulted many receiving a special touch from God. One first-time visitor to the church mentioned to me that they had never felt the presence of God so strongly as they did in that Sunday service. They told me that they will surely be returning next Sunday.

What's happening in Uruguay this month?

Hyphen Ministry

In July, we had our first of many hyphen hangouts and ministry events. I was blessed to welcome 15 people to my apartment for fellowship and fun. We have plans of doing group Bible studies and more social events outside of the church building. The goal is to expand our reach to reach more souls and to strengthen the existing bonds in the church.

Kids Church Rally

The church in Piedras Blancas held a Children's Rally that I was blessed to be a part of. Children from all over the neighborhood were in attendance. The kids performed a play depicting the healing power of Jesus and were taught a Sunday School lesson on trusting in God. At the end, the parents came forward to pray with their children. We thank God for the seeds that were sown.
