

June 2026 Newsletter

Christina Flowers

June was our final month in the academic program at Harvest Bible College. The month was filled with spiritual growth, ministry opportunities, and open doors to see God work in both the college and the local church. Throughout the month we continued our prayer walking efforts as well as our involvement in New Life Church in Glasgow.

June 5-7 we travelled to London to assist in one of our UPC churches there for the weekend. Throughout the weekend we participated in a panel discussion on Saturday, as well as their Sunday morning service where one of our students preached.

June 21 we travelled to the church in Edinburgh for the final time this academic year, where one of our students ministered the Word.

On June 28, we had a unique opportunity to minister in a nearby Congregational church that is not connected with our organization. We joined them for their Sunday morning service where we all participated in connecting with the congregation, leading their service, delivering the Word, and fellowshiping with their church board following service. This opened the door for us to connect and fellowship with members and leaders in our local community, and they expressed feeling impacted by our ministry.

My 10-month AIM appointment in Scotland wrapped up at the end of June, but I look forward to returning to Scotland in September for another 10-month term. During this next term I will be focused on helping in New Life Church in Glasgow, and will also be teaching in Harvest Bible College in both the Part-Time and the Full-Time program. I am deeply grateful for all of the support that has enabled me to continue my service in Scotland, and I look forward to seeing what the next year will hold.
