

During Sunday service I translated for the two young ladies that gave testimonies. It was the first time I had translated during a service, and it was an incredible experience! I felt the Lord put words and phrases in my mouth that I had never previously learned or heard in Spanish.

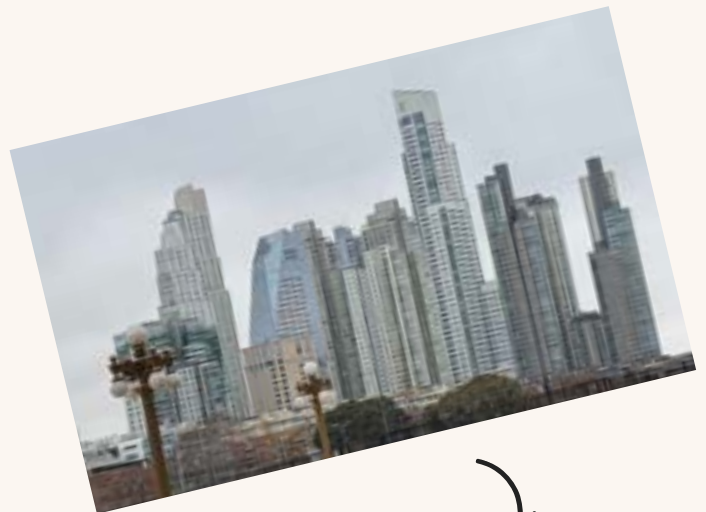

Friday and Saturday we helped at the National Youth Conference. The AYC group sang during worship service and everyone ministered during altar call. Saturday morning we spent several hours preparing bags of food, passing them out to those in the streets, praying for people, and inviting them to service.

# AYC BUENOS AIRES

A lot of my responsibility during this trip was focused around administrative and organizational tasks. Herding a group of 50+ young people in a metro city of 15-16 million was quite the task- even with four chaperones, three missionaries, and three national leaders.

I spent much of my time this week translating between the national leaders and the AYC youth. I really enjoyed challenging myself and stretching my Spanish farther than I ever imagined it would go!

The Sunday after my birthday, the church threw a surprise party for me which the whole church attended—complete with a lunch at the church, a cake, and many unexpected gifts.

The way this church has received me with such immense love, excitement, and humility is something that I will never forget.

The church that I am serving at during my time in Santiago is IPU Bet-el which is located in a region called Puente Alto. Right now I am playing piano for worship services and teaching music lessons to two of the youths. One of the youths is learning drums and the other is learning piano.
