

Amber Ward 2026

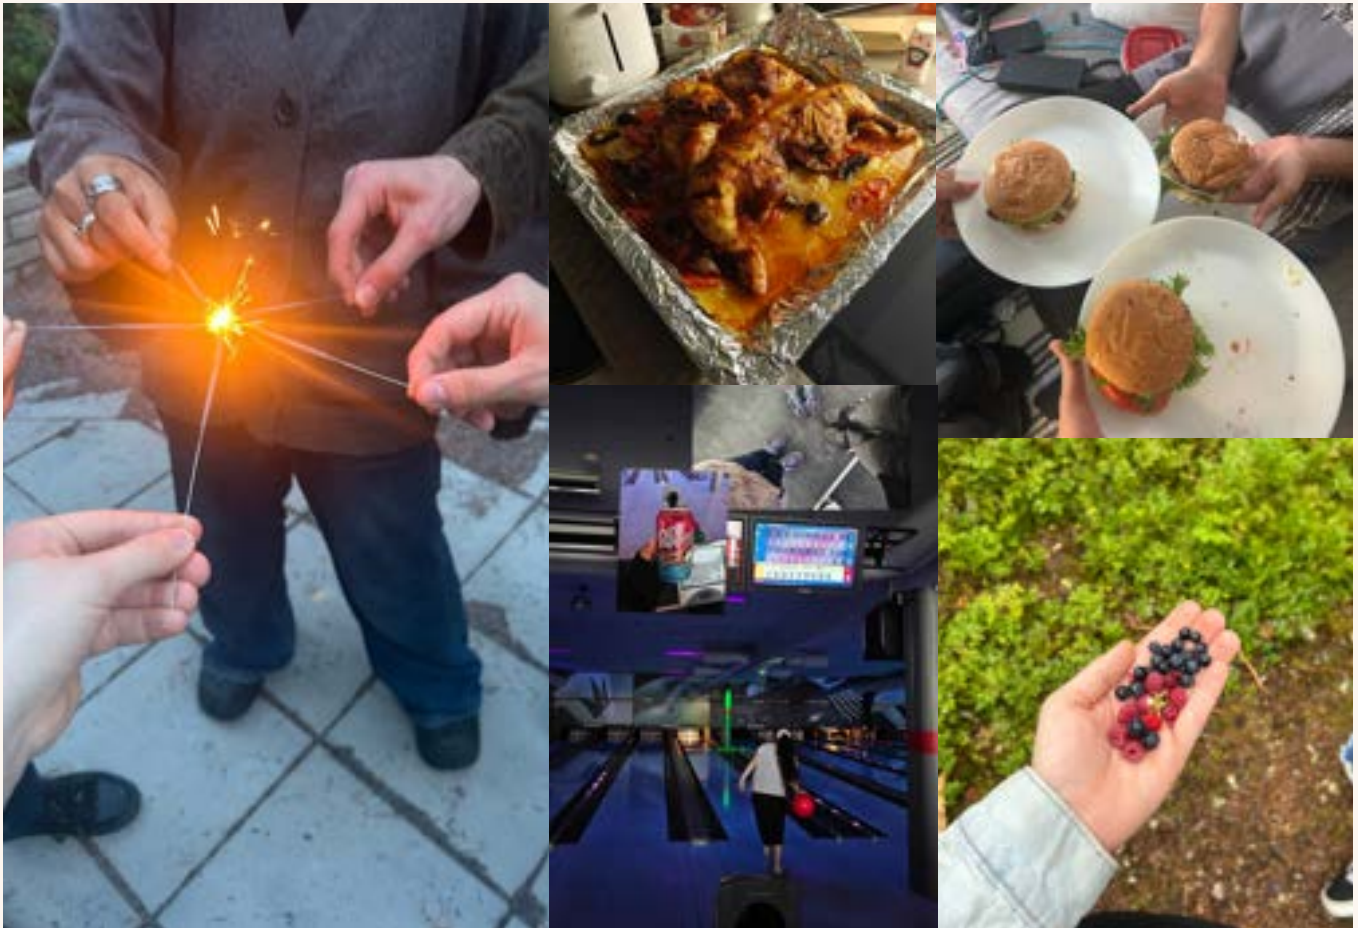

Amber Ward- AIMER to Finland

Field Notes

July has been busy and full! I have fellowshiped, prayed, worked, and more! I have been so privileged to be able to have an amazing church family! This month we went to a mini island off of Finland for fellowship, and one of my friends from uni came and joined us. On the way there, we had a wonderful conversation about faith and the Bible. This is someone I have been praying for for a while now. This friend's family called me and reached out for prayer for his grandmother to receive healing. This sticks out because they are Muslim, and I was asked via FaceTime to pray. Hallelujah for openings! I have been invited to another friend's home to meet her family and had a great time with them! I have been able to pray on the many campuses my internship has taken me to, and I am excited to see revival happen on campus!

Personal Notes

I am blessed with an amazing church family and have enjoyed the summer celebrations and fellowship we have had. I have been fellowshiping and building deeper bonds with current connections while strengthening the connections with coworkers. I am looking forward to new things for the new school year, as my friend group will be split and I will be surrounded by new people. I have been able to show my friends holy living as we progress through the summer festivities! I have been able to inspire one of my friends to stop drinking through consistent holy example.

with gratitude, Amber Ward
