ANDORRA

Global Impact

Because Andorra is a tourist destination and we meet in a hotel, the church constantly receives guests and visitors from across the world. On one such occasion, we had a couple on vacation drawn by the worship music into our service. We watched as she recorded the new Pentecostal experience on her phone with tears streaming down her face as she felt God. Afterwards, we were able to direct them and other spiritually hungry families to UPCI churches near them in both France and Singapore. While our local congregation continues to grow, it's gratifying to be uniquely positioned to connect people to truth and the body of Christ globally. Andorra might be small but it is having global reach and impact!

Area Coordinators

We were honored to host our Area Coordinators Bro. & Sis. Burgess for the first time to the beautiful country of Andorra! We thank God for their leadership. They are truly a treasure to the kingdom of God!

MADRID, SPAIN

This month we were in Madrid for meetings and blessed to be apart of the Spain Missionary Field Fellowship. This was a refreshing time as new and lasting relationships were made! While there, we were invited and honored to minister at Life Tabernacle. There was one baptized in that service, glory to the name of Jesus!
