

Our Second Month in Dhaka, Bangladesh

The Lord is faithful! We are blessed to bring before you our second monthly report. Every day we are becoming more “Bangladeshi” and are excited to report that our children thrive here. Although we have only been here for two months, it seems as if it has been a lifetime. We are fully adapted to the time change and have developed really good routines. One of my favorite things to do almost everyday, is prayer walks through local communities. Besides the benefit’s of prayer, it lets the community know we are here and we are not just lying in bed all day. Our main objective continues to be building relationships with our Bible school students, young adults, community and local church.

Ministry:

Most of our time continues to be spent in the community of Savar. This is where our Bible school is located, and we teach approximately five times a week. We teach a theology class as well as an English as a Second Language class, and we have just wrapped up our third course.

We try to be active everywhere we can. We are doing prayer walks and home visits throughout the local Savar community, as well as being involved in our main church services on Sunday. We continue to stay plugged in as much as possible.

Mason plays keyboard for the

church. He struggles with the Bangla songs, but he sees the need and continues to do what he can. Sister Katie goes up to Savar on Fridays to take our kids to children's church, where they are finally beginning to thrive and build relationships, even despite the language barrier.

First Villiage Trip:

Several hours north of Dhaka along the border to India are several remote tribal villages. During this trip we visited the site of a future church and ministered to local village children. I taught David and Goliath, emphasizing that all it takes to change the world is for one person to be faithful and do what is right, even when it is incredibly hard. At our first church service, I preached about the promises of God. At our second service, after crossing a river by bamboo bridge and boat, I preached, “Have You Tried Jesus?” God moved faithfully in these services, and approximately **FORTY-TWO** souls were added to the church.

LET'S BUILD A CHURCH:

This November, we break ground on a new church building in the Mymensingh District. They have a pastor and a congregation in revival but lack a house of worship. Help us build a church. We lack about **FIVE THOUSAND** dollars.

THANK YOU!

Thank you to every church, pastor, family, and individual who has prayed for us, encouraged us, and financially supported this work. We desperately need your continued support and prayers.

We love you all! Thank you!
